For far too long, individuals living on the Autism spectrum have been categorized, labeled and placed into diagnostic boxes. But life experiences are far more complex, and the Autism Society embraces the infinite ways in which people live their lives. In service of those unique experiences, the Autism Society has undergone a major rebranding effort.

The Autism Society is proud and excited to advance our mission to create connections, empowering everyone in the Autism community with the resources needed to live fully. Our vision is to create a world where everyone in the Autism community is connected to the support they need, when they need it. We do this while embodying our values of **Dignity, Equity, Inclusion, Diversity, and Integrity**.
